## HIV+ Haitian Orphans Sponsorship Program

**Kervens  
Dominique**

**Kervens** is six years old. He is the only child at our orphanage who has a known living father. However, his father also HIV+, is an alcoholic who was feeding Kervens alcohol regularly in the hopes of killing him. One day, the father decided to give him up to an orphanage. While living at the orphanage, Kervens was getting sick and was misdiagnosed with typhoid. An American medical volunteer saw and treated Kervens with antibiotics for his infections, but recommended an HIV test. After he was tested and found to have HIV, without warning, he was thrown out in the streets. Kervens returned to live with this dad; therefore, returned to a daily regimen of alcohol.

Upon returning to the orphanage to continue his work, the American medical volunteer who had recommended that Kervens be tested for HIV noticed that Kervens was going, it was then that he learned the child was kicked out because of his HIV status. He returned to the States and shared the child’s story with his wife. She turned to Google, to search for a possible place for the child to live, and landed on CHOAIDS. She contacted Marie by way of Facebook Messenger, shared the story with her, and within four days Kervens was living at the CHOAIDS home. Kervens is now on a regimen of vitamins and supplements, antiretroviral medications and a regular diet of three meals and two snacks daily. He enjoys being a child and loves to play soccer with the two youngest boys Mackenley and Richardson.

I would like to support Kervens with a \_\_\_\_\_ monthly or annually:

\$50     \$100     \$250     \$500     \$650     \$1,000     \$1,500     Other: \_\_\_\_\_
